

OUR COMPANY

About Demers Ambulances

Demers Ambulances is one of the largest and most trusted ambulance manufacturers worldwide. With 20,000+ ambulances delivered to more than 20 countries, Demers Ambulances is recognized as a leader in innovative products that meet and exceed the expectations of medical emergency specialists around the world.

Over the past six decades, Demers Ambulances has never stopped innovating, releasing ten successive generations of ambulances, each one more technologically advanced than the last, improving the experience of paramedics and their patients each time. Demers Ambulances has 350 employees with headquarters located in Beloeil, Quebec, and manufacturing plants in Canada and the United States.

About Lion Electric

Lion Electric is an innovative manufacturer of zero-emission vehicles. The company creates, designs and manufactures all-electric class 5 to class 8 commercial urban trucks and all-electric buses and minibuses for the school, paratransit and mass transit segments. Lion is a North American leader in electric transportation and designs, builds and assembles all the key components of its vehicles, including chassis, battery packs, truck cabins and bus bodies.

Always actively seeking new and reliable technologies, Lion vehicles have unique features that are specifically adapted to its users and their everyday needs. Lion believes that transitioning to all-electric vehicles will lead to major improvements in our society, environment and overall quality of life. Lion shares are traded on the New York Stock Exchange and the Toronto Stock Exchange under the symbol LEV. Lion Electric, The Bright Move. TheLionelectric.com

About Demers Braun Crestline Medix

Through its strong and diversified portfolio of brands - Demers, Braun, Crestline, Medix - the Company operates twelve production and service center sites across North America and employs a dedicated team of 1140+. Demers Braun Crestline Medix's combined sales position the organization as the largest ambulance manufacturer in Canada and the second-largest ambulance manufacturer in North America. Its offering of ambulance products ranges from the price-conscious value ambulance to the highly-customized specialty vehicle. MAKING HISTORY: The Demers eFX Ambulance has arrived!

Since 2016, Demers Ambulances has embarked on a journey to reinvent the meaning of ambulance transportation and design. Now, for the first time in history, a purpose-built all-electric ambulance has been designed and built by Demers Ambulances, and in partnership with Lion Electric.

Introducing the Demers eFX Ambulance on the Lion5 Chassis! Finally, an all-electric ambulance purpose-built for paramedics in unique collaboration with partners from the emergency health services (EMS) community. The Demers eFX Ambulance is the result of the genius and innovation of combined knowledge and expertise. Designed with intention: to improve the safety of ambulance technicians, the comfort of patients, and the future of our planet - at a lower cost.

PRODUCT FEATURES AND BENEFITS

Main Features include:

- Range of 200 km (125 miles) on a single charge.
- Class 5, 8 700 kg vehicle (19 180 lbs).
- 340 HP motor powered by an 800V battery pack (130 to 195 kWh).
- LiquidSpring® Smart Suspension.
- Low floor design.
- 3.2" drop suspension kneeling ability.

Benefits of this revolutionary ambulance include:

- Reduced environmental footprint, versus traditional vehicles.
- Fewer moving parts and less downtime.
- Meeting the total cost of ownership expectations, without compromising the quality of services offered.
- Increased ergonomics of the ambulance space and innovative seats to allow better patient care and improve the quality of comfort.
- Optimal front cabin design of the Lion5 chassis providing the necessary space for paramedics.
- Providing greater care for patients and improving the quality of comfort and ride for paramedics through enhanced ergonomics.
- ... and many more innovative features to be unveiled shortly!
